Champaign County Greenways & Trails

Guest: Gabriel Lewis, Transportation Planner
Champaign-Urbana Urbanized Area Transportation Study (CUUATS)
Champaign County Regional Planning Commission (CCRPC)

The Champaign County Regional Planning Commission has been coordinating greenway, trail, and bikeway planning between local and state agencies for decades. The latest planning effort concluded in 2013 with the update of the Champaign County Greenways & Trails Plan, titled *Active Choices*. The purpose of the plan is to foster interagency cooperation in order to implement the best greenways and trails system possible for our area. The plan is designed to provide guidance and a framework to ensure Champaign County's desire to create a bikeable, walkable, and environmentally aware and active community.
